

Dwarika's Hotel Kathmandu

Nepal Extension Options

Dwarika's hotel in Kathmandu was inspired by a vision that sought to revive the architectural splendour of the Kathmandu Valley, incorporating the region's great history and artisan craftsmanship to create an environment 'with a sensation of the original'. This vision has been realised in the materials, style and artefacts that make Dwarika's such a unique property and reflect Nepal's ancient Newari heritage.

Dwarika's though is so much more than a living museum. Large, luxurious rooms come complete with every comfort and the hotel has a library, fitness centre, Ayurvedic spa and free Wi-Fi throughout. Outside, it has a delightful courtyard and an enticing swimming pool - a tranquil haven from the hustle and bustle of Kathmandu city. Alongside these indulgent facilities, Dwarika's has several bars and dining options including the renowned Krishparnan restaurant. Here you can enjoy a true feast of traditional Newari cuisine made from the finest and freshest ingredients.
